

NOTICE TO CONTRACTORS

July 18, 2016

RE: Contractor Qualification Requirements

Project:

14785- Bangerter Hwy @ 5400 So. Aqueduct Relocation

Project Manager: (Primary Contact During Advertising)

John Montoya

Resident Engineer:

Bryan Chamberlain

Project Mandatory Qualification for Bidding:

Prospective bidders and other interested parties must complete the contractor's qualification statement prior to submitting a bid for the project. Contractor Qualification Statement information must be submitted no later than 10 days prior to the bid date by 12:00 pm.

A list of qualified bidders will be posted via addendum within 2 working days of this deadline.

The link to the qualification submission page is listed on the project explorer project advertising page or may be accessed at:

<http://goo.gl/forms/mRat2TjrrOjVxXPQ2>

Project Preview Meeting will be held:

Meeting Date: July 28th 2016 3:00 pm

Location: Region 2 Milestone Conference Room

The project team will be holding a project preview meeting to review the critical aspects of this project. Given the accelerated schedule contractors are encouraged to preview the project information provided prior to this meeting and come prepared to address questions at this meeting. **Potential bidders are encouraged to review the project required contractors minimum project qualifications prior to the preview meeting.**

Project Request for Information:

Prospective bidders and other interested parties may have questions regarding contract documents, plans and specifications.

Given the project critical dates, specialized scope of work and industry involvement, we are implementing an automated question and answer protocol specifically for this project. **All project questions must be submitted online at <http://goo.gl/forms/hNMQV4QLnlxW9JS2>**

The project questions and answers process allows for questions to be directed in writing to the Project Manager per specification, and for all questions and answers to be posted publicly. Your questions submitted will automatically be sent to the Project Manager for the project.

Please submit your questions no later than 4:00pm MDT 3 days prior to bid opening to ensure your question is answered.

Questions received after this time will be answered at the discretion of the Project Manager.

Response Delivery / Addendum Publishing:

Question responses may be accessed via the link published on the project explorer project advertising page.

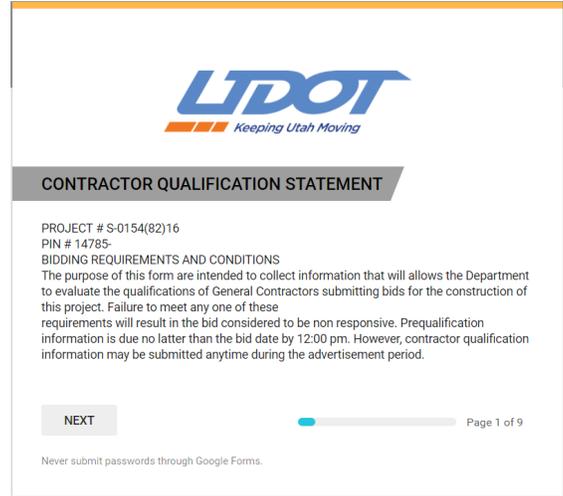

Responses requiring an addendum will be listed answered as "Addendum Pending".

Unless an item is found to be critical, any addendums needed will be consolidated for a one time issuance. However, please be advised that the the bid opening date for this project is critical and will likely not be postponed.

The link to the response page is listed on the project explorer project advertising page or may be accessed at

https://docs.google.com/a/utah.gov/spreadsheets/d/1VqrtwKLO4p6GlxofV_SFwRwHwqno9SqbUXtVxjtqE/edit?usp=sharing

It is the responsibility of the bidder to verify all information within this document. If bidders use this information in preparing a proposal, it is used at their own risk. Bidders are responsible for all conclusions, deductions, and inferences drawn from such information.

The screenshot shows the 'CONTRACTOR QUALIFICATION STATEMENT' form. At the top is the UTAH DOT logo. Below it, the form title is 'CONTRACTOR QUALIFICATION STATEMENT'. The project details are: PROJECT # S-0154(82)16, PIN # 14785. The section is titled 'BIDDING REQUIREMENTS AND CONDITIONS'. The text explains that the purpose is to collect information for evaluating contractor qualifications. It states that failure to meet requirements will result in a non-responsive bid. Prequalification information is due by 12:00 pm on the bid date. A 'NEXT' button is visible at the bottom left, and a progress bar shows 'Page 1 of 9' at the bottom right. A footer note says 'Never submit passwords through Google Forms.'
